EXECUTIVE SUMMARY

Motivated Data Analyst skilled in SQL, Python, and Power BI with hands-on experience in data cleaning, visualization, and dashboard creation. Strong analytical mindset with practical project experience. Seeking an entry-level Data Analyst role to contribute to data-driven decision-making.

EDUCATION

Adhiyamaan College of Engineering

B.E. Computer Science and Engineering — CGPA: 7/10

Hosur, Tamil Nadu

Aug 2021 – May 2025

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks: Numpy, Pandas, Matplotlib

Databases: Power BI, MySQL, SQL

Developer Tools: VS Code, Pycharm

Technologies: Git, GitHub

EXPERIENCE

Qspider Software Testing & Solution

Python Data Science Intern (Onsite)

Nov 2025 – Present

Bengaluru, Karnataka

- Working with Python for data analysis and problem solving, implementing scripts for data processing and automation.
- Performed data analysis using NumPy and Pandas for data manipulation, cleaning, and transformation.
- Developed and executed SQL queries using MySQL for data retrieval, filtering, and reporting.
- Built interactive dashboards and reports using Power BI to visualize business data.
- Utilized Git and GitHub for version control, managing code repositories and tracking project changes.

PROJECTS

Women Safety Alert App | *React Native, GPS API, Firebase, SMS Gateway*

Jul 2024 – Dec 2024

- Enabled instant emergency alerts with live location sharing to predefined contacts.
- Integrated GPS tracking and SMS notifications for real-time assistance.
- Achieved 500+ simulated test runs with 100 % message delivery success rate.

Skin Cancer Detection Portal | *Flask, TensorFlow, HTML, CSS, JS, MySQL*

Jan 2025 – May 2025

- Achieved 92% model accuracy in early-stage skin cancer detection using TensorFlow.
- Reduced false positives by 15% during testing, improving prediction reliability.
- Optimized MySQL queries for patient record management, improving data retrieval time by 35 %.

HONORS & AWARDS

Research Publication: Published and presented a research paper titled *"Doctor-Patient Portal with Skin Cancer Prediction Using Deep Learning"* at the International Conference on Recent Trends in Computing & Communication Technologies. The paper was published in the IJRASET Journal, March 2025.
